#### **Module Description №4**

Module name and code	Specialization module. Actual problems of criminal law and criminal procedure
Number of credits (ECTS) in the module	20 ESTC
The content of the module and a brief description of the disciplines	As a result of studying this module, the undergraduate will know the patterns of development of social relations in the field of prosecutorial supervision over the observance of the rule of law; means and forms of prosecutor's reaction to revealed violations of laws; the content of legal institutions related to the activities of the prosecutor's office, acquire the skills to draw up and draw up legal documents, the necessary measures to protect human and civil rights. Problems of combating corruption - The purpose of studying the discipline: to give a comprehensive understanding of the problems and prospects for the development and application of state anti-corruption strategies and the specifics of the implementation of independent anti-corruption initiatives. Actual problems of prosecutorial supervision - Conventionally, the course "Actual (Modern) problems of prosecutorial supervision in the Republic of Kazakhstan" can be divided into two parts: general and special. The General Part presents material on the organizational and legal foundations for the construction and activities of the prosecutor's office, as well as on the main theoretical and methodological foundations of prosecutorial supervision. Actual problems of criminal procedure law - the study of this discipline is to obtain a correct understanding of the essence and objectives of criminal proceedings, the basic principles of the criminal process, the theory of evidence, the order of pre-trial proceedings in the case, starting with the production of verification of information about the impending and committed crime and the initiation of a case, issues of bringing to trial and trial, trial of the case in the courts of appeal and execution of the sentence, proceedings by way of supervision and resumption of cases on newly discovered circumstances, features of proceedings in certain categories of criminal cases. Problems of investigating crimes related to drug trafficking - The activity of investigating crimes related to drug trafficking, at all its levels, is determined, first of all, by a set of tactics and methods used in the production of investigative actions at all stages of the investigation of a criminal case. Actual problems of the theory of forensic evidence - considers and studies activities related to the process of proof. Proof, i.e. work with evidence occupies a very important place in the criminal process: the legality and validity of the verdict, the correctness of other decisions taken in the case depend on how complete and qualified the proof is.

	<p>Modern problems of the organization and activities of the legal profession in the Republic of Kazakhstan - problems of standardization of the legal profession and advocacy, modern problems of organizational, legal, ethical aspects of advocacy and the legal status of a lawyer; consulting activities of a lawyer and the social function of the bar; participation of a lawyer as a representative and defender in civil, criminal proceedings and in cases of administrative offenses.</p> <p>Criminal offenses in the sphere of economy - Criminal-legal and criminological analysis of the articles of the sixth - ninth chapters of the special part of the Criminal Code of the Republic of Kazakhstan Consideration of controversial issues of qualification of these criminal offenses</p> <p>Actual problems of international criminal law - International criminal law as an academic discipline is a system of knowledge about the main institutions of international criminal law, crimes against the peace and security of mankind and conventional crimes, about various forms of interaction between states and other international actors in the field of combating crime.</p>
