#### Description of the Module #4

<b>Module title</b>	<b>Management Methods</b>
<b>Number of credits (ECTS) in the module</b>	4 credits
<b>The content of the module and a brief description of courses</b>	<p><b>Management of risks / Risk management in financial institutions. The purpose of the course:</b> to study of the characteristics of risks, as well as the economic foundations of managing their various types to reduce financial losses and ensure the conditions for the successful functioning of the company. / <b>The purpose of studying the course:</b> knowing of graduates of this EP with the problems and main areas of risk management in financial institutions, coverage of theoretical, organizational and methodological issues of the construction and operation of risk management systems, as well as methods and types of management of various types of risks in financial institutions.</p> <p><b>Economic - mathematical methods of analysis / Modeling of financial projects. The purpose of the course:</b> theoretical training necessary for the analysis and modeling of economic processes related to the field of professional activity. / <b>The purpose of studying the course:</b> development by students of the theoretical foundations of financial modeling, taking into account the peculiarities of planning, management and organization of the financial system in corporations.</p>

### Description of the Module # 6

<b>Module title</b>	<b>Taxation and banking</b>
<b>Number of credits (ECTS) in the module</b>	12 credits
<b>The content of the module and a brief description of the courses</b>	<p><b>Regulation of budgeting taxation / Activities of financial institutions analysis. Purpose:</b> purposeful influence of the state on the behavior of economic agents through the use of various methods and instruments of tax policy to achieve the desired socio-economic results. Theoretical aspects of the content of tax regulation are summarized, the tasks and tools of tax regulation are identified in order to identify the main directions for further tax regulation by the state. / <b>The purpose of studying the course:</b> formation of modern fundamental knowledge in the field of credit and banks, insurance markets and stock exchanges among future graduates of the master's program.</p> <p><b>Tax planning and forecasting / Tax management. Purposes of studying the course:</b></p> <ul style="list-style-type: none"> <li>- formation of undergraduates' ideas about the need and methodology for planning and forecasting state tax revenues and taxation costs for business entities;</li> <li>- systematized knowledge of tax calculation and management decision-making in the field of tax planning;</li> <li>- the formation of theoretical knowledge and practical skills in the application of quantitative statistical, mathematical-statistical and heuristic methods for analyzing the state, existing trends and patterns in the tax</li> </ul> <p>/ Studying the theory and practice of tax management, especially its application under the current tax and customs legislation; mastering the skills of practical calculations of specific types of taxes, as well as their optimization; study of various instruments of tax influence, study of tax, customs, civil legislation, as well as international tax agreements.</p> <p><b>Strategic Banking Management / Banking Financial Services. Purposes</b> of mastering the discipline are:</p> <ul style="list-style-type: none"> <li>- the formation of an understanding of the importance of the strategy as a tool for the phased implementation of long-term commercial and social objectives of shareholders and management;</li> <li>- the development of mechanisms that allow directing bank management activities to implement the strategy. / <b>Purposes</b> – to give information about the banking industry in the field of services in the most comprehensive, structured form, which makes it possible to greatly facilitate the study of the process of financial services of banks.</li> </ul> <p><b>Banking risk management/ Banking business. Purposes of studying the course:</b> the formation of the graduates of this AP of complex ideas about building a risk management system in a bank, as well as mastering the theoretical knowledge and applied skills of integral risk assessment in commercial banks in order to develop optimal solutions for risk management in banks. / <b>Purposes of studying the course:</b> familiarization of graduates of this OP with the activities of banks in the domestic market, with international settlements, investments and lending.</p>

## 7. The concept of development of the 7M04136 “Financial Risk Management” Academic Program

Goal 1: Improving educational activities in accordance with the requirements of the external environment	Target indicator: functioning of the university in accordance with the main parameters of the Bologna process	Units of measurement	The planning period				
			Plan 2019-2020	Plan 2020-2021	Plan 2021-2022	Plan 2022-2023	Plan 2023-2024
1	2	3	4	5	6	7	8
<b>PRIORITY 1. MODERNIZATION OF THE 7M04136 “Financial Risk Management”</b>							
<b>IMPROVING THE EDUCATIONAL PROCESS IN ACCORDANCE WITH THE REQUIREMENTS OF THE BOLOGNA PROCESS</b>							
<b>Task 1.1</b> Modernization of the educational environment and improvement of the quality of education	total number of master students	people	7	10	15	20	25
	proportion of international master students	%	0,1	0,2	0,3	0,4	0,5
	conditions for teaching master students with special educational needs		+	+	+	+	+
	number of accredited academic programs	unit	1	1	-	-	-
	qualitative academic performance of master students (the share of students with "good" and "excellent" grades)	%	60	65	70	75	80
	the number of holders of grants from the rector, from social partners, nominal scholarships	people	1	1	2	2	3
	share of undergraduate and graduate students employed by specialization during the first year after graduating	%	70	73	75	76	77
	share of new academic programs developed jointly with foreign experts	%	-	-	-	-	-
	number of disciplines taught in foreign languages	unit	-	1	2	3	3
	number of new academic programs	unit	-	-	1	-	-
	ratio of the number of faculty members and master students	proportions	1/6	1/6	1/6	1/6	1/6
<b>Task 1.2</b> Creation and development of information infrastructure	number of mass online open courses	unit	1	1	1	1	1
	number of developed media courses	unit	1	1	-	-	1
	number of developed electronic textbooks certified by the Ministry of Education and Science of the Republic of Kazakhstan	unit	-	-	-	1	1
<b>Task 1.3</b> Increasing the professional level of faculty	share of full-time faculty with academic degrees and ranks	%	50	53	55	57	60
	number of full-time PhDs	people	3	3	4	4	5
	the number of faculty who have completed advanced training	people	3	4	5	5	6
	The number of university faculty who have completed the	people	1	-	-	-	1

	international						
<b>Task 1.4</b> Improving the qualitative composition of the student population	The number of secondary school graduates, holders of the sign "Altyn belgi", diploma with honors, winners of competitions and olympiads	people	-	1	1	1	1
	The number of HSEM graduates continuing their education in the master's program	people	2	3	4	4	5
	The share of master students who speak a foreign language at the intermediate level	%	100	100	100	100	100
<b>Task 1.5</b> Introduction of modern forms of practice-oriented learning	Number of elective disciplines - bachelor's degree level	unit	12	12	12	12	12
	Number of elective disciplines – graduate level	unit	5	6	7	8	10
	The share of renewal of elective disciplines - bachelor's degree level	%	1	1	1	1	1
	Renewability share elective disciplines – graduate level	%	1	3	4	5	5
	The share of renewal of elective disciplines - bachelor's degree level	%	5	5	5	5	5
	Number of interdisciplinary academic courses	unit	1	2	2	3	3
	Number of members of the Alumni Association	people	-	1	1	1	1
	Number of practitioners involved in conducting training sessions and teaching the elective disciplines	people	1	1	2	3	3
	Number of graduation projects commissioned by enterprises	unit	1	2	2	3	5
	Number of annual memoranda signed with leading enterprises and organizations	unit	1	1	1	2	2
	The share of academic programs, in development and implementation of which the industry representatives are involved	%	100	100	100	100	100
Level of Employers Satisfaction with readiness of graduates to work	%	60	65	70	75	80	
<b>PRIORITY 2: INCREASING THE EFFICIENCY OF RESEARCH SUPPORT AT THE 7M04136 “FINANCIAL RISK MANAGEMENT” ACADEMIC PROGRAM</b>							
<b>Goal 2:</b> Achieving the sustainability of research activities of the university by providing effective integration of education and science	Target indicator: increasing the amount of funding for scientific and innovative activities of academic departments and research institutes of the university at the expense of external funding sources	Units of measurement	Plan 2019-2020	Plan 2020-2021	Plan 2021-2022	Plan 2022-2023	Plan 2023-2024
<b>Task 2.1</b> Increasing research capacity of the	Number of research publications of the faculty members from the academic departments and scientific workers of	unit	30	35	35	40	45

university	research institutes						
	The share of faculty of academic departments and scientific workers of research institutes participating in the implementation of research projects	%	15	20	25	30	35
	Number of scientific publications in journals with a non-zero impact factor ( ThomsonReuters , SCOPUS , RSCI )	people	5	6	7	8	10
	Level of citations of publications based on Web of Science Core Collection (Clarivate Analytics), annually	%	1,0	2,0	3,0	4,0	6,0
	The number of textbooks published under the stamp of the Ministry of Education and Science of the Republic of Kazakhstan	unit	-	-	-	-	1
	Number of monographs, textbooks and manuals in English	unit	-	-	-	-	1
	Number of copyright certificates	unit	1	1	1	2	2
<b>Task 2.2</b> Creation of a multi-channel system for financing the scientific research of departments	The amount of funding for university research projects at the expense of customers	thousand tenge	15000	16000	16000	17000	18000
	Joint projects with leading foreign universities and research centers, large enterprises and multi-national companies	unit	-	-	-	1	-
	The number of research topics based on the results of budget competitions for research projects	unit	-	1	1	1	-
	The number of research topics, the customers of which are enterprises, national companies and regional authorities	unit	-	-	-	-	-
	Bringing the ratio of the number of patents and published scientific articles with an impact factor to the number of scholars to 15.5% of activity	%	-	-	-	-	-
	The share of research projects implemented in practice	%	-	-	-	5	7
<b>Task 2.3</b> Integration of the research activity and the teaching process	Number of research organizations, laboratories, scientific centers	unit	1	1	1	1	1
	Number of members of the Student Research Community	people	1	1	2	2	4
	Number of research publications of master students	unit	7	10	15	20	25
	Number of scientific and innovative projects of undergraduate, graduate and post-graduate students	unit	1	1	1	1	1
	Implementation of research projects and programs involving graduate and doctoral students	%	100,0	100,0	100	100	100
	The number of researchers receiving the diplomas and awards for participation in competitions, non-CIS countries	unit	-	-	-	-	1
The number of researchers receiving the diplomas and awards for participation in Republican competitions	unit	1	1	1	2	2	

	Number of joint publications of faculty, undergraduate, graduate and doctorate students with PhD	unit	4	6	8	10	12
<b>PRIORITY 3: INTEGRATION OF THE 7M04136 “FINANCIAL RISK MANAGEMENT” ACADEMIC PROGRAM THE INTERNATIONAL RESEARCH AND EDUCATIONAL AREA</b>							
<b>Goal 3:</b> Training the graduates with higher education at the level of international requirements, increasing the international prestige of HSEM in the educational environment, students, international partners	<b>Target indicator:</b> achievement of international standards, quality, harmonization of HSEM curricula with the curricula of the world's leading universities, provision, implementation of joint diploma programs, participation in international research activities, development of language training for faculty, staff, students	Units of measurement	Plan 2019-2020	Plan 2020-2021	Plan 2021-2022	Plan 2022-2023	Plan 2023-2024
<b>Task 3.1</b> Achieving international quality standards in research and teaching programs	The number of foreign professionals invited to teach courses at HSEM	people	-	1	2	3	4
	The number of well-known scholars from far and near abroad involved in joint scientific and grant research	people	-	-	-	-	1
<b>Task 3.2</b> Ensuring, in accordance with the requirements of the Bologna process, student mobility, mobility and involvement of employees in the international educational process, the development of HSEM as a center for the mobility of foreign students	Number of students participating in academic mobility programs	people	-	1	2	3	4
	Number of international internship/apprenticeship programs with partner universities	units	3	2	3	4	4
<b>Task 3.3</b> Increasing the international prestige of HSEM among business structures, students, international partners	Number of international projects and programs in which the university participates	units	-	1	-	-	1
<b>PRIORITY 4: ORGANIZING THE EFFICIENT MANAGEMENT AND IMPLEMENTATION OF THE CORPORATE GOVERNANCE PRINCIPLES AT THE 7M04136 “FINANCIAL RISK MANAGEMENT” ACADEMIC PROGRAM</b>							
<b>Goal 4:</b> Improving the organizational structure and management system of the university	<b>Target indicator:</b> effective functioning of the strategic and operational management system with horizontal and vertical links, availability of an internal quality assurance system, development of corporate culture	Units of measurement	Plan 2019-2020	Plan 2020-2021	Plan 2021-2022	Plan 2022-2023	Plan 2023-2024
<b>Task 4.1</b> Improving the internal quality assurance system	Master student satisfaction with the quality of educational services	%	75	80	85	85	90
	Strengthening the role of faculty and students in university management and academic development	%	50	50	50	50	50
<b>Task 4.2</b>	Number of references in electronic print media	units	1	1	1	1	1

Maintaining a positive image of the university in the external environment, strengthening positions	Entry of the academic program into the top ten according to the results of the national rating according to IQAA	units	+	+	+	+	+
<b>PRIORITY 5: DEVELOPING THE RESOURCE POTENTIAL OF THE 7M04136 “FINANCIAL RISK MANAGEMENT” ACADEMIC PROGRAM</b>							
<b>Goal 5:</b> Improving the facilities and financial support	<b>Target indicator:</b> material and technical support of the educational process and of scientific and innovative activities at a level not lower than license requirements	Units of measurement	Plan 2019-2020	Plan 2020-2021	Plan 2021-2022	Plan 2022-2023	Plan 2023-2024
<b>Task 5.1</b> Ensuring the appropriate facilities for the academic process	volumes of repair and construction works	KZT million	110,1	140,0	142,0	143,0	145,0
	Gross area of facilities	sq.m	35600	35600	35600	35600	35600
<b>Task 5.2</b> Provision of educational and laboratory equipment	financial indicators for purchasing the educational furniture and educational and laboratory equipment	KZT million	36,0	42,0			
	financial indicators for the acquisition of computer equipment and multimedia equipment	KZT million	75,0	82,0			
<b>Task 5.3</b> Dynamic development of the library	Supplying the books fund in accordance with the profile of the university (ensuring the necessary ratio between the available fund of educational and scientific literature and the number of students)	copies	815000	830000	835000	840000	845000
	formation of an electronic catalog	copies	76000	80000	85000	90000	95000
	providing access to other library and scientific funds, including the Republican Interuniversity Electronic Library	BD	12	15	16	18	20
	providing access to the world's electronic libraries and legal databases for research undergraduates and doctoral PhD students	BD	11	12	13	14	15
	the filling of the repository with scientific and educational-methodical works of the university: monographs, textbooks, manuals, scientific articles	%	10	20	25	30	35
<b>PRIORITY 6: IMPROVEMENT OF EDUCATIONAL WORK AND SOCIAL DEVELOPMENT WITHIN THE FRAMES OF THE 7M04136 “FINANCIAL RISK MANAGEMENT” ACADEMIC PROGRAM</b>							
<b>Goal 6:</b> Formation of an active civic position, social responsibility, a sense of patriotism, high moral and leadership qualities among young people	<b>Target indicator:</b> the share of young people who take an active part in the implementation of activities in the field of youth policy and patriotic education from the total number of young people	Units of measurement	Plan 2019-2020	Plan 2020-2021	Plan 2021-2022	Plan 2022-2023	Plan 2023-2024
<b>Task 6.1</b> Implementation of a set of measures for patriotic education and the formation of civic engagement of youth	share of students involved in public events of a patriotic nature	%	20	25	30	40	50
	number of events for patriotic education (curator hours, conferences, thematic lectures, etc.)	units	10	15	15	18	20

	share of events held to explain and promote the Addresses of the President of the Republic of Kazakhstan	%	50	50	50	50	50
<b>Task 6.2</b> Implementation of a set of measures for the formation of socially significant and individual qualities, personality traits	proportion of master students participating in various forms of student government	%	5	7	10	12	12
	the number of master students of the academic program participating in student associations of the university	units	5	7	10	12	12
	participation of students in the "Zhasyl el" construction and labor teams, etc. The number of student members of the Alliance of Students of Kazakhstan	people	1	2	3	5	7
<b>Task 6.3</b> Implementation of a set of measures for formation and development of systems of spiritual and moral knowledge and values	The proportion of young people participating in the public life of the university	%	100	100	100	100	100
	The number of students of the academic program - members of the creative teams of the university	people	7	10	15	20	25
<b>Task 6.4</b> Improving the social protection of students	Provide master students with the Dormitory Educational Program	%	100	100	100	100	100
	The level of social support for master students of the academic program coming from socially vulnerable groups of population	%	100	100	100	100	100
<b>Task 6.5</b> Participation of students in the implementation of the "Spiritual Modernization" program for the modernization of public consciousness	The share of students who took part in activities within the framework of the implementation of the "Education and Knowledge" sub-program of the "Spiritual Modernization" program.	%	100	100	100	100	100
