6. Organizing the Inclusive Education.

The 6B04113 "Corporate Finance" Academic Program provides for the delivery of educational services for disabled people and people with hearing and speech disabilities, as well as with disabilities of musculoskeletal system in accordance with medical indications. Organizing the educational process for persons with disabilities is regulated by the academic policy of the university. For students with disabilities, if necessary, an individual curriculum can be developed with an individual schedule for attending classes. Maintenance of academic programs for persons with disabilities is implemented using e-learning and distance learning technologies (hereinafter – the DLT). To ensure the availability of education for students with disabilities, the university uses a form of remote access for students to the resources at its educational portal through the website and through students' personal accounts in the "UNIVER" information system and in Moodle LMS at caspidot.kz platform.

In order to arrange the inclusive environment for students with disabilities, the following measures are taken:

- training on how to work with the "UNIVER" information system and through Moodle LMS at caspidot.kz platform;
- training on how to work with the electronic catalog of the library.
